

Monarch Center for Autism

at Bellefaire JCB

Assessment & Individualized Planning Frequently Asked Questions

Can we tour Monarch Residential Autism Services before admission?

Yes. Before admission, families can schedule a tour of Monarch Residential Autism Services to see the residential and educational environments, learn more about our approach, and ask questions about how we can meet their child's individual needs. Tours are scheduled based on clinical team availability.

How will families be involved and kept informed about their child's progress?

Case management updates are shared regularly with parents and guardians by email, telephone, or MS Teams, based on family preference. Residential Education communication forms are also shared daily or weekly, based on family preference.
