

Monarch Center for Autism

at Bellefaire JCB

Coordinated Health & Wellness Frequently Asked Questions

Is there a nurse who administers medications?

Yes. Monarch Center for Autism nurses dispense and monitor medications as prescribed.

How are medical and dental appointments handled?

Zest Pediatrics provides concierge pediatric care at the Wuliger Wellness Center on Bellefaire JCB's campus, including annual well visits, blood draws, vaccinations, sick visits, and other routine medical care.

Infinite Smiles Dentistry, led by Dr. Shreya Mody, provides dental care on campus. A mobile anesthesia unit is available when sedation is medically necessary.

Will my child have 1:1 staffing?

Monarch typically maintains a **2:1 staffing ratio**, with two residents to one staff member. Our team-based approach allows staffing to be adjusted to **1:1 when needed** based on an individual resident's needs.
